

BARTEK Ingredients Inc.

A Taste for Today and Tomorrow

ORGANIC VOLATILE IMPURITIES AND RESIDUAL COMPLIANCE

This is to certify that during the manufacture of DL-Malic Acid and Fumaric Acid at Bartek Ingredients Inc. Stoney Creek facility, we do not use any solvents, and to the best of our knowledge, none are present in our products. This includes non-ICH solvents, organic solvents, the Class 1, 2, 3 solvents, and all other solvents referenced in the Current Edition of the USP32/NF 27 Vol 1, <467> Residual Solvents Appendix 1, including all supplements.

Furthermore, there is no potential for the Class 2 solvents listed in the USP 32/NF 27 Vol 1, <467> Residual Solvents (Chloroform, 1,4-Dioxane, Methylene Chloride and Trichloroethylene) or any other solvents, to contaminate our product during the manufacturing, shipping, storage and handling process.

Bartek Ingredients Inc. will test product to ensure compliance with the USP 32/NF 27 Vol 1 <467> Residual Solvents requirements.

Jadwiga Dera
Director, Technical Resources
