

**BARTEK** Ingredients Inc.

A Taste for Today and Tomorrow

## **ORGANIC VOLATILE IMPURITIES and RESIDUAL SOLVENTS COMPLIANCE STATEMENT**

This is to certify that during the manufacture of DL-Malic Acid and Fumaric Acid at Bartek Ingredients Inc. Stoney Creek facility, we do not use any solvents and to the best of our knowledge, none are present in our products. This includes non-ICH solvents, organic solvents, and the Class 1, 2, or 3 solvents or any other solvents referenced in Test Method <467>, Appendix 1 of The United States Pharmacopoeia and The National Formulary, Current Edition, including all supplements.

Further, there is no potential for the Class 2 solvents considered in Method IV under USP <467> Residual Solvents (Chloroform, 1,4-Dioxane, Methylene Chloride and Trichloroethylene) or any other solvents, during the manufacturing, shipping, storage and handling of the product.

Bartek Ingredients Inc. will test product to ensure that there are no detectable amounts of Organic Volatile Impurities or Residual Solvents present. Random monthly samples are sent on a quarterly basis to a contracted accredited lab for analysis.
